

Taking back control of COVID-19

We have now taken new stocks of the Panodyne COVID – 19 self testing kits. The testing kit from Government Approved Manufacturer will mean that businesses will only have to endure a loss of 48hrs where staff have been required to take a test and then wait for the result.

How it works...

- The Panodyne COVID-19 testing kit is very easy to use
- Gives an accurate result in 15minutes
- 97% accuracy for both negative and positive results
- Simple Storage 2 to 30 degrees centigrade
- Ability to random test

Benefits...

- Each test individually packed so no cross contamination and sent out to mobile units individually unlike other multi packs
- Ability to make patient treatment decisions quickly
- Reduction in loss of hours and productivity
- Able to make random tests
- High level of personal confidentiality
- Shelf life 2years
- Easy instruction guide provided
- To be administered by a Health Professional
